PROFESSIONAL SUMMARY

Results-oriented Software & AI Engineer with experience in full-stack development, data analysis, AI-powered systems, and project coordination. Skilled in Python, TypeScript, React, FastAPI, SQL, Power BI, and Agile project management, with experience delivering scalable digital solutions, research projects, and community-focused technology initiatives.

TECHNICAL SKILLS

- **Programming & Development:** JavaScript (ES6+), TypeScript, Python, React, Next.js, Vite, HTML5, CSS3, FastAPI, Django, RESTful APIs, Supabase
 - **Data Analysis & Visualization:** Microsoft Excel, Google Sheets, SQL, PostgreSQL, MySQL, Power BI, Tableau, Pandas, NumPy, Data Cleaning, Dashboard Creation, Data Visualization, Reporting
 - **AI & Machine Learning:** LangChain, RAG (Retrieval-Augmented Generation), LangGraph, OpenAI APIs, ChromaDB, Prompt Engineering, AI System Integration
 - **Project Management & Collaboration:** Agile/Scrum, Jira, Trello, Notion, Sprint Planning, Stakeholder Communication, Risk Management, Documentation, Team Collaboration
 - **Tools & Platforms:** Git, GitHub, CI/CD, VS Code, Figma, Canva
-

TECHNICAL PROJECTS

Voxel — Transport & Navigation Safety App

Technologies: Python, FastAPI, TypeScript

- Built an accessibility-focused navigation and safety application for individuals with speech impairments, integrating real-time communication and location-based services.

AI Financial Advisor System

Technologies: Python, LangChain, ChromaDB, OpenAI

- Developed a RAG-based financial advisor with AI-powered knowledge retrieval and structured financial data analysis.

Mayondo Wood & Furniture Management System

Technologies: React, Supabase, PostgreSQL

- Built a business management platform for inventory tracking, order processing, and operational reporting.

PROFESSIONAL EXPERIENCE

Web Developer | Codveda

Nov 2025 – Feb 2026

- Developed responsive web applications and integrated front-end interfaces with Python-based RESTful APIs.
- Optimized application performance using Vite and participated in Agile sprint planning.

Community Support Officer | Hello World Uganda

2022 – 2025

- Facilitated digital skills training and literacy programs to improve community digital inclusion.
- Managed local computer networking setups and maintained basic solar power systems for community tech hubs.
- Directed data collection, entry, and reporting processes to support monitoring and evaluation activities.

Research & Data Entry Assistant | Ipsos

Jan 2021 – Jul 2021

- Conducted community-based and market research projects focused on women's savings groups and energy market studies.
 - Collected, cleaned, validated, and organized field data for reporting and analysis.
 - Supported research on women's economic livelihoods, savings behaviors, and financial decision-making in rural communities.
 - Assisted in energy market research for Vivo Energy (Shell), analyzing lubricant and fuel usage patterns.
 - Maintained accurate documentation, ethical data collection practices, and high data quality standards.
-

EDUCATION & CERTIFICATIONS

- **Turing College:** Software & AI Engineering (2025 – 2026)
 - **Digitalexy Drive:** Data Analysis (Ongoing)
 - **Refractory Academy:** Software Engineering (2025)
 - **Techcrush:** Project Management (Ongoing)
 - **CREAITZ Nigeria:** Content Creation (2025)
 - **BrighterMonday:** Soft Skills (2025)
-
